Experience

2019-03 - Present

RPA Developer

Self-learner

UiPath

After getting to know the capabilities of an RPA tool, I decided to start learning it on my own. Thanks to the free courses available on UiPath academy website and the community edition of their development software, I now am confident about my progress in this field. Looking forward to applying my knowledge in real life projects.

Achievements:

- UiPath Advanced RPA Developer certified.
- Built a strong knowledge of UiPath tools, activities, and RE-Framework.
- Can develop RPA projects keeping project development standards and good practices in mind.
- Also have knowledge of UiPath Licensing and RPA Security aspects.
- Check out some RPA [sample projects](#) developed by me.
- Also, you can check out my [sample Java project](#) which involves database to store data.

Ericsson India Global Service Pvt. Limited.

BHARTI AIRTEL, VODAFONE IDEA, DST BRUNEI, INDOSAT

The project handles many of the critical modules of these telecom operators. These are very important for uninterrupted operations and any issue in the services, can easily result in a lot of customer complaints. The job is to develop scripts to automate various tasks and to minimize the downtime by quickly resolving issues. Time constraint and project knowledge are critical for the project.

Responsibility:

- Deployment of deliverables.
- Ensuring uninterrupted operation.
- Generating the requested data and reports.

Achievements:

- Awarded as the Star performer for my work.
- I am the primary SPOC of this project.
